

How to buy WordPower for TouchChat for the iPod/iPhone/iPad

There are two ways to purchase WordPower for TouchChat for your iPod/iPad. You can purchase it through iTunes on your computer or through your iPod/iPad. If you want to download through your iPod/iPad, you must have a wireless connection to the internet (WiFi). If you purchase it through iTunes on your computer, you must sync your iPod/iPad with your computer before the application will appear on your device. If you download WordPower for TouchChat through iTunes on your computer, it will be considerably faster than if you download it directly to your iPod/iPad. Here are the instructions to download WordPower for TouchChat using your computer:

- 1) Check the recommended requirements to run WordPower for TouchChat <http://www.silver-kite.com/touchchat/support/article/4> to ensure that the device on which you intend to install WordPower for TouchChat meets these requirements. Although WordPower for TouchChat will run on devices with the minimum requirements, communication will be slower (e.g. iPod touch 3rd generation vs. 4th generation).
- 2) Download and install iTunes on your computer. If you do not have iTunes installed, go to <http://www.apple.com/itunes/> to download iTunes.
- 3) Create an iTunes Account. To create an account, open iTunes on your computer. Choose the **Store** dropdown menu. Then click on **Create Account**. If you have already created an account, you can click on **Sign In** and use the ID and password for the account you created.

- 4) Next, you will need to search for Word Power for TouchChat. Click on the **Search** box on the upper right side of iTunes.

- 5) Type in “TouchChat AAC with WordPower” and press Enter. You will see iPhone apps and iPad apps.

- 6) If you have an iPod touch or an iPhone, you will need to purchase TouchChat with WordPower.

If you have an iPad, you will need to purchase TouchChat HD - AAC with WordPower. The “HD” version of TouchChat was developed to take advantage of the larger screen on the iPad.

- 7) Once you have purchased the appropriate application for your device, you will need to sync to your iPod/iPad. Syncing means that you add content to your iPod/iPad. If you need to learn more about syncing, you can use the tutorials in iTunes. Choose the **Help** dropdown menu, then select **iTunes Tutorials**, then **Sync to Your iPod**. In iTunes, you can choose which items you want to sync (Apps, Music, Movies, etc.) Make sure that the checkbox next to Sync Apps is checked and that the box next to the TouchChat app is checked. Otherwise, the app will not be transferred to your device even through you have purchased it.

- 8) Once TouchChat is installed in your device, you can start it by touching the icon.

- 9) Once you open the program, there is one more step that is necessary to begin using WordPower for TouchChat. There are several different vocabulary systems built into TouchChat. To choose WordPower, click on the Vocab menu in the upper left hand corner, then select Choose New Vocab, then choose WordPower24TouchChat or Wordpower24wPhrasesTouchChat. The difference between these two vocabularies is that WordPower24wPhrases incorporates phrases and sentence starters in order to make language generation easier for those that may have difficulty with a word-based system.
